A low-angle photograph of a grand interior space, likely a historical building or museum. The image is dominated by several tall, fluted columns that rise towards a high, vaulted ceiling. The lighting is warm and golden, creating a sense of depth and grandeur. The architecture features intricate details and arches in the background.

HISTORY OF OUR INDIA

Atithi Devo Bhava is a Sanskrit verse, translated literally it means "The guest is equivalent to God". It is taken from ancient Hindu scripture and has become part of the codes of conduct for the Hindu society. What it has come to mean today is that no matter who you are and where you are from, in India you are welcomed warmly and treated with respect.

HEY! HISTORIAN

The dictionary defines history as "the study of past events, particularly in human affairs" or "a branch of knowledge that records and explains past events." As a historian myself, I'd argue that history is much more than that! But I'll let you decide for yourself while you read these quotes about what history is.

AGRA THE TAJ

AGRAINDIA

With their elaborate superfluities and wonderful architecture, Indian monuments represent one of the most outstanding facets of the multi-faceted Indian culture. An architectural feat in itself, each Indian monument is a remarkably splendid sample of unbelievable artistry, covering a sense of mystery, deception and romance. Be it the marvel in white marble, the spellbinding Taj Mahal; or the red stone splendor, the magnificent Red Fort; or the magnificence of temple art of Khajuraho, Konark and Hampi, there is evident the master craftsmanship and elegance, that brings to the forefront the splendor of the bygone era. Monuments are witnesses of India's past; the monuments of India are also the guardian pillars of India's cultural heritage. The monuments of India have become an inspiration for the future generations.

AN EPITOME OF THE MUGHAL DYNASTY" AGRA FORT

An architectural masterpiece, The Red Fort of Agra or Agra Fort was built by Emperor Akbar in 1573. It is located on the right bank of the River Yamuna and is made entirely of red sandstone.
